## DESIGN—MEANS OF SUPPORT—INVITATION TO VISITORS.

It is the aim of this Institution to confine its work to those who are really worthy objects of charity.

The Dispensary is supported solely by voluntary contributions. The sum of forty dollars paid at once, or ten dollars annually for four years, constitutes the donor a Life Member. The sum of five dollars constitutes the donor an Annual Member.

All who desire to obtain a better personal knowledge of the necessity of such Institutions, their practical benefits to the sick poor, and their claims on the liberality of our citizens, are invited to visit the Dispensary and judge for themselves.

## FORM OF BEQUEST.

I give and bequeath to the BRAINARD FREE DISPENSARY, in the city of Chicago, the sum of ---------- Dollars, to be paid by my executors out of my real or personal estate, as soon as the settlement of my affairs will permit, to the Treasurer of the said Association, to be applied by the Trustees thereof to the general purposes of said institution.

# BRAINARD FREE DISPENSARY.

# SECOND ANNUAL REPORT

OF THE

# BOARD OF TRUSTEES

OF THE

## BRAINARD FREE DISPENSARY.

"Blessed is he that considereth the poor."

In presenting the Second Annual Report of the Brainard Free Dispensary, the Trustees congratulate the contributors to its support upon the fact that unquestionable good has been done, and the need of such an institution has been proved beyond a doubt. During the six months ending June 1, 1869, seven hundred and thirty-seven patients were under treatment, who made twelve hundred and eighty-nine visits to the Dispensary, and to whom were dispensed eight hundred and sixty-five prescriptions. Two hundred and fourteen children were vaccinated; making an aggregate of one thousand three hundred and ninety-three patients, and three hundred and seventy-seven vaccinations, that have been treated since the opening of the Dispensary in 1867.

The Dispensary was removed on the first of December, 1868, to the commodious rooms in the second story of Rice and Jackson's building, northwest corner of Randolph and Jefferson streets. The Trustees desire to express their appreciation of the services of their Board of attending physicians, who daily gave their time and professional skill to the applicants at the Dispensary. The removal of Dr. Lackey from the city, lost to the Dispensary the services of a faithful and earnest physician, who, from the foundation of the institution, was prominently identified with it.

By means of Dispensaries, the early termination or palliation of diseases is accomplished, and the sick poor, in many cases, are saved from becoming a charge to charitable institutions for a protracted period of time, thus saving expense, besides conferring an invaluable boon upon the poor sufferers themselves. The Board feel thankful for the support given this enterprise during the past year, and its results justify the expectation of a support during the coming year, commensurate to its extending usefulness and increasing needs.

# SUBSCRIPTIONS

## FOR THE YEAR ENDING JUNE 1, 1869.

| | | | |
|---|---|---|---|
| Hugh Templeton | $15 00 | L. Matthei | $1 00 |
| E. A. Bishop | 15 00 | H. M. Neuberger | 4 00 |
